Gazi Shafayet Hossain

Data Analyst | MSc in Data Science, Statistics and Decision Analysis
Stockholm, Sweden | +46 72 036 3226 | hossaingazishafayet@gmail.com | linkedin.com/in/gazishafayet

Summary

Data Analyst with an MSc in Data Science, Statistics and Decision Analysis (Stockholm University, 2026) and 3.5 years of full-time work in banking and technology, including 14 months in card data and reporting at Eastern Bank: SQL analysis of 150k+ transactions a month to find top co-brand regions for acquisition, and revenue reporting for senior management. As a volunteer at ESN, built three Looker Studio KPI dashboards available to 519 sections in 45 countries. Available immediately.

Skills

Analytics and Business Intelligence (BI): SQL, Excel (Power Query, PivotTables), Looker Studio (Google Data Studio), dashboards, KPI reporting, data visualisation, data cleaning, data quality checks, ad hoc analysis
Trained through certificates and MSc: Power BI (DAX, Power Query, data modelling), Tableau, Python (pandas, NumPy), R (ggplot2), statistical analysis, Bayesian statistics, machine learning, MCDA, sensitivity analysis
Tools: Git/GitHub, Jira, Confluence

Experience

Data Analyst (Volunteer) | Erasmus Student Network (ESN), Brussels (remote, part-time) | May 2025 - Apr 2026
- Replaced a manual monthly reporting process with three Looker Studio KPI dashboards covering 5,000-6,000 activities a month, available on demand to 519 local sections in 45 countries, so boards could check their own numbers at any time.
- Cleaned and consolidated activity data from multiple sources and ran ad hoc country-level analyses on request.
- Documented the dashboard and KPI logic, data definitions and reporting steps so the next volunteer could take over the monthly cycle without rebuilding it.

Junior Officer, Cards Data & Reporting | Eastern Bank PLC, Dhaka, Bangladesh | Jul 2023 - Aug 2024
- Queried and analysed transaction and revenue data with SQL for about 25k corporate and co-brand credit card accounts (150k+ transactions a month), segmented co-brand usage by region and flagged the top regions to the Cards team as acquisition targets. During the role, active co-brand users grew 12%.
- Built the monthly revenue and portfolio-performance reporting in Excel on top of the SQL extracts, for the Heads of Cards and Digital Banking, the Product team and the Deputy Managing Director of Retail & SME Banking.
- Automated the monthly data preparation in Excel with Power Query, which cut manual work in each reporting cycle.
- Resolved corporate and co-brand card queries from 120+ branches and sub-branches in the CRM as the data and product contact, and fed recurring issues back into the reporting.

Executive, Procurement & Reporting | Tech Valley Networks Ltd., Dhaka, Bangladesh | Mar 2022 - Jun 2023

Junior Officer | FZ Technologies Ltd., Dhaka, Bangladesh | Feb 2021 - Feb 2022

IT Intern | Shimanto Bank PLC, Dhaka, Bangladesh | Sep 2020 - Dec 2020

Education

MSc in Data Science, Statistics and Decision Analysis | Stockholm University | Sep 2024 - Jun 2026
Thesis: *Multi-Criteria Threat Evaluation for Local Climate Hazards* (co-authored, published on DiVA)
Coursework: statistical data analysis, Bayesian statistics, machine learning, decision and risk analysis (Python, R, SQL).

BSc in Computer Science and Engineering | North South University | Sep 2014 - Aug 2019

Projects

MSc thesis project: MCDA decision-support model for local climate hazards | Stockholm University | Jan 2026 - Jun 2026
- With a co-author, built a spreadsheet-based multi-criteria decision analysis (MCDA) model, designed for easy use by municipal staff, that turns stakeholder priorities from surveys into weighted rankings of local climate hazards.
- Ran sensitivity and uncertainty analysis across alternative weight profiles to test how stable the rankings were (best-case and worst-case rank intervals); tested on three municipal cases (Tampere, Tartu, Malmö).
